A defense player obstructing the free space to goal with any part of her body denies the attack the opportunity to shoot safely and encourages shooting at an unprotected player.
- The following points need to be considered before obstruction of free space is called:
  - The ball carrier must be within the critical scoring area (12 meters)
  - The ball carrier must be in active pursuit to goal and must have the opportunity to shoot.
  - A defender intentionally marking within a stick's length of the ball carrier is not obstructing the free space to goal.

- The defense has first right to the hashes on either side of the player with the ball on a penalty shot.

#### **SELF START:**

- Following a whistle blown for a foul outside of the critical scoring area, the player who is awarded the free position, after coming to a stop, may continue the course of play without waiting for an additional whistle from a settled stance (both feet stationary on the ground and the ball positioned in the head of the crosse).
- The player fouled must take the free position within playing distance of the spot of the foul. The offending player shall move 4 meters from the player taking the free position as directed by the official.
- All players must move 4 meters away from the free position.

- All penalties are non-releasable.
- Anyone receiving 2 yellow cards in the game will be suspended from further participation in the game.
- Anyone receiving a Red card will be suspended from further participation in that game and the team's next game.
